

## ASSESSMENT DESCRIPTION

### **PERSONAL TALENTS AND SKILLS INVENTORY (PTSI)**

**REPORT OPTIONS:** CUSTOMER SERVICE, GENERAL EMPLOYMENT, LEADERSHIP/MANAGEMENT, SALES, AND SALES MANAGEMENT

Successful businesses need the right talent for the right job. Managers must seek ways to accurately assess, develop and retain top talent. This assessment will assist you in these endeavors by assessing the individual's cognitive structure, focusing on three dimensions of thought: systematic (ideas, thinking structure), extrinsic (things, doing and events) and intrinsic (people, feelings and self). Ultimately, this assessment accurately measures the core dimensions of how one thinks and ranks one's potential for performance.

**Validation:** The PTSI has been validated in over 28 individual validation studies, conducted over 20 years by more than 19 separate examiners. It meets the standards of the US Federal Government Equal Employment Opportunity Commission (EEOC). Ongoing research continues to underscore the value of this unique business tool.
